PROFESSIONAL SUMMARY

Full Stack Developer with over 4+ years of experience in creating high-performing web applications. Specializes in React JS and backend development with Python and Django. Successfully implemented scalable software solutions that enhance user experience and drive operational efficiency. Strong collaborator with a track record of reducing system downtime and optimizing load times.

PROFESSIONAL EXPERIENCE

Frontend Developer

UL-Technologies, Kochi | Nov 2024 – Present

- Developing high-performance front-end applications using Vite.js, ensuring optimized load times and seamless user interactions.
- Implementing state management with Redux RTK and handling side effects efficiently using Redux Saga.
- Building and maintaining reusable UI components with Storybook, improving design consistency and development speed.
- Collaborating with backend teams to integrate APIs, ensuring a smooth and scalable architecture.
- Enhancing code maintainability and performance by following best practices and optimizing rendering processes.

Full Stack Developer

woodenclouds, *Kochi*
Mar 2023 - july 2024

- Engineered web applications using React JS, enhancing user engagement by 25% through UI/UX enhancements and performance optimization.
- Collaborated with cross-functional teams to introduce new features, cutting page load times by 30%.
- Built and maintained RESTful APIs, ensuring smooth integration between front-end and back-end, leading to a 40% increase in data processing efficiency.
- Diagnosed and resolved complex issues in production, reducing bugs by 50%.
- Streamlined deployment processes by implementing CI/CD pipelines, reducing deployment times by 60%.

Full Stack Developer

Steyp Pvt Ltd, *Kochi*
Aug 2020 - Mar 2023

- Designed responsive web interfaces using React JS and built reusable components, decreasing development time by 20%.

- Developed and managed scalable backend services with Python and Django, handling over 100,000 API requests daily.
- Mentored junior developers in coding best practices and architectural principles, improving team productivity by 15%.
- Optimized system performance through monitoring and profiling, resulting in a 35% improvement in response times.
- Enhanced application stability by implementing robust error-handling and conducting thorough code reviews.

SKILLS

- Frontend: React JS, React Native, HTML, CSS, Bootstrap, Tailwind, Styled Components, JavaScript
- Backend: Python, Django, Node.js
- APIs: RESTful API development and integration
- Tools: Git, Webpack, Babel, Jenkins, Agile methodologies
- Databases: MongoDB, PostgreSQL

EDUCATION

Bachelor of Computer Applications (BCA) - drop out
SES Sreekantapuram, Kannur
Mar 2017- Mar 2020

PROJECTS

MarkGPT – AI-Driven Digital Marketing Tool

- Objective: Deployed OpenAI's NLP and ML to analyze consumer data, leading to a 20% improvement in marketing ROI.
- Tech Stack: Python, Django (backend); React.js (frontend); integrated with OpenAI for AI-driven analysis.
- GitHub: markGpt

KartMyKart – E-Commerce Platform

- Developed a responsive e-commerce platform using React.js and Styled Components, achieving a 95% user satisfaction rate.
- Redux for state management to ensure seamless data flow, reducing cart abandonment by 15%.
- Constructed backend infrastructure with Django for user authentication and product management.
- GitHub: KartMyKart

AWARDS & RECOGNITIONS

- Steyp Internship: Awarded for excellence in both frontend and backend development.

LANGUAGES

- English, Malayalam, Hindi
